

Screens

Desktop screens allow employees to be more focused on their work by helping to cut out colleague's distracting and irritating telephone or computer sounds, in addition to improving office acoustics. Free standing floor screens provide visual, physical and acoustic barriers in any workspace by separating parts of the office into teams and groups or creating quiet work zones and breakout areas in open plan spaces.

Floor Standing Screens - Fabric

1200mm, 1500mm and 1800mm High Floor Screens

Free standing floor screens are available in three different sizes and are used to break up the appearance and divide the space without losing any of the benefits of the open plan layout. Fabric wrapped floor screens also provide the operators with an element of seclusion and privacy and can be joined together with the linking strips for connecting 2 screens or 4 screens together.

Screen Toppers - Acrylic Screens

Desktop Screen Toppers - 300mm High

Acrylic screen toppers have been designed as an add-on to existing fabric or aluminium frame desktop screens to quickly, easily and at minimal cost convert your existing screen into a barrier screen. The use of acrylic not only allows light to pass through the office but work colleagues can also see each other, plus the additional 300mm of increased height is a solution to help keep employees safe.

Fabrics - Screens

Fabrics specified for their acoustic properties are ideal for wall coverings, suspended ceiling panels, desk mounted or free standing screens. The job of the fabric is to allow sound to pass through cleanly, or provide a degree of absorbency, which allows the specialist acoustic system behind to do what it needs to do.
